### **Sustainable light solutions**

- High quality LED light
- Energy saving
- Warm white light

### **Special characteristics**

- Vertical and horizontal wall mounting possible

**PHILIPS**

Wall light  
Fit chrome, LED

## Highlights

### True skin colour

This Philips bathroom light makes colours reflect in a natural and accurate way, just the way the sun would do.

### High quality LED light

The LED technology integrated into this Philips lamp is a unique solution developed by Philips. It turns on instantly, enables an optimal light output and brings out vivid colours in your home.

### Warm white light

Light can have different colour temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

### Energy saving

This Philips energy-saving lamp conserves energy compared with traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

### IP44 - bathroom-safe

This Philips bathroom light is especially designed for humid environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This bathroom light is designed with IP44: it is protected against splashing water. This product is most commonly used and ideal for the bathroom.

### Vertical and horizontal

This lamp can be installed vertically or horizontally, just the way you like it.
