# Highlights

## Light and design

This design lamp has light with a minimalist essence that defies traditional boundaries, creating light and lightforms of inspiring purity and beauty.

## Up and down light effect

This wall light beams light upwards and downwards, to create elegant and powerful decorative light effects on your walls.

## Warm white light

This light uses the very latest lighting technology by Philips with the new warm white state-of-the-art high power LEDs providing a glow of light with a colour temperature of 2700 Kelvin.

## High light quality

An LED lighting module of 7.5 W produces a light output equivalent to a 40-W incandescent bulb (350 Lumen). Save energy with strong light output.

## Diffused light effect

The diffused light of the Philips lamp will illuminate your room with warm white light, allowing you to combine functionality and respect for the environment.

## Extremely long operating life

A light source you can trust. Philips LED lights offer an extremely long life of at least 20,000 hours (which equals 20 years on the basis of an average use of 3 hours/day with at least 13,000 on/off switching cycles). With Philips LED lights you won't have to worry about maintenance or lamp replacement while having the perfect light ambience in your home.

## Saves up to 80% energy

The LED lighting technology used in Philips lighting fixtures is highly energy-efficient (7.5 W module produces 350 Lumen). As a result, every lighting fixture conserves energy, helping consumers to save money on their electricity bills and contribute to preserving the environment. For home lighting that's energy-efficient and provides great light in a range of contemporary designs, look for Philips LED products.

## On/off switch on article

With the button discreetly integrated into the article, you can easily switch the light on and off.

# Specifications

## Design and finishing

- Material: aluminium
- Colour: white

## Product dimensions and weight

- Height: 12.5 cm
- Length: 14.7 cm
- Width: 6.7 cm
- Net weight: 0.670 kg

## Technical specifications

- Mains power: Range 220 V–240 V, 50-60 Hz
- Bulb technology: PowerLED, Safety Extra Low Voltage
- Number of bulbs: 2
- Wattage bulb included: 2.5 W
- Maximum wattage replacement bulb: 2.5 W
- Light colour: 2700K warm white
- Lamp lifetime up to: 20,000 hrs
- Beam angle: 120°
- IP code: IP20, protection against objects bigger than 12.5 mm, no protection against water
- Class of protection: I - earthed

## Service

- Warranty: 2 year(s)

## Packaging dimensions and weight

- Height: 15.9 cm
- Length: 13.3 cm
- Width: 10.8 cm
- Weight: 0.810 kg

## Miscellaneous

- Especially designed for: Living Room and Bedroom
- Style: Modern
- Type: Wall light
