- Perfect to relax and socialise

Sustainable light solutions

- High quality LED light
- Energy saving
- Warm white light
- Long operating life of up to 15 years

Special characteristics

- Adjustable spot head
- Suitable for wall and ceiling installation

PHILIPS

Highlights

High quality LED light

The LED technology integrated into this Philips lamp is a unique solution developed by Philips. It turns on instantly, enables an optimal light output and brings out vivid colours in your home.

Warm white light

Light can have different colour temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Adjustable spot head

Direct the light where you want it most by simply adjusting, rotating or tilting the spot head of the lamp.

Energy saving

This Philips energy-saving lamp conserves energy compared with traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

Long operating life

A light source you can trust. The integrated LEDs used in this Philips LED lamp will last up

to 15,000 hours (which equals 15 years on the basis of an average use of 3 hours/day with at least 13,000 on/off switching cycles). It feels so good to think that you won't have to worry about maintenance or light bulb replacement while having the perfect light ambience in your home.

Wall and ceiling installation

Install this lamp as a wall light or ceiling light, just the way you like it.

Create a stylish atmosphere

This light is designed around the latest tastes, trends and lifestyles to blend effortlessly into your décor and define the localised ambience you have always desired.

Perfect to relax and socialise

The living room is the heart of any home: a place where families gather to relax and guests socialise. Lighting for your living room and bedroom has to be flexible and easy to adjust to its different uses throughout the day. Careful placement of different light sources and playing with light layering helps create the feeling of space and gives the room a warm and welcoming feel.

Specifications

Design and finishing

- Material: synthetics
- Colour: white

Extra feature/accessory incl.

- LED integrated
- Defined light beams
- Adjustable spot head
- 5 year warranty on the LED module

Product dimensions and weight

- Height: 12 cm
- Length: 46 cm
- Width: 8.0 cm
- Net weight: 0.535 kg
