

TITAN LED

... dustproof, waterproof, for high ceilings.

USE

The light fitting is suitable for large operations with high ceilings, industrial outdoor and indoor roofed spaces, warehouses, workshops, sports areas, transport terminals and utility structures without a danger of explosion of gases, dust and combustible fumes.

The light fitting is resistant to deformation, dust, splashing water and chemically aggressive environment.

Characteristics of the used tempered glass and its shattering power are controlled by the ČSN EN 12150-1 standard. For applications where spontaneous fracture means a higher safety risk, we recommend to use the version with the safety film (SF).

ADVANTAGES

- Light fitting protection **IP54**
- Maximum ambient temperature up to **t_a = 35°C**
- Lifetime 50,000 hours / L80B20
- Diffuser: translucent or transparent tempered glass = high chemical resistance
- Body: steel sheet, white colour (RAL 9003) = high mechanical resistance
- Up to 45 % lower electricity consumption when compared to tubes T5
- In DALI version possibility of constant luminous flux for whole lifetime (CLO)
- Constant luminous flux even in ambient temperature of -20°C
- Standard model - CRI > 80: 4000 K
- At request CRI > 80: 3000 K, 5000 K, 6500 K, CRI > 90: 3000 K, 4000 K
- It can be delivered in dimmable or emergency version
- Easy installation with the use of supply connector without necessity to open light fitting
- Certification: ESC

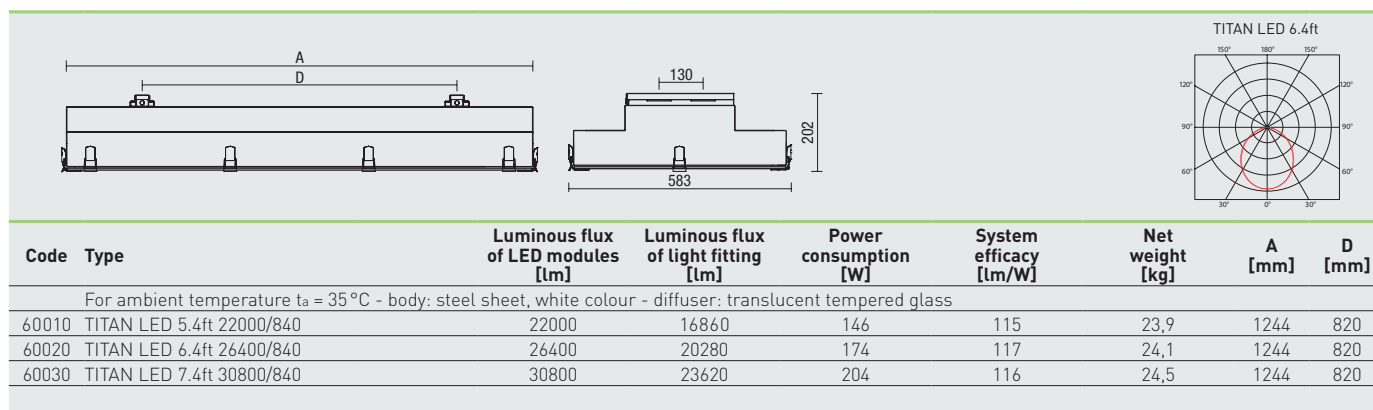

TITAN LED

TECHNICAL DESCRIPTION

- Light fitting protection: IP54
- Maximum ambient temperature: $t_a = 35^\circ\text{C}$,
Maximum ambient temperature: $t_a = 25^\circ\text{C}$
(version with emergency back-up source for 1 or 3 hours; M1h, M3h)
- Maximum system efficacy: 117 lm/W
- The watt and lumen values can, in accordance with valid standards, vary by $\pm 7,5\%$
- Standard model - CRI > 80: 4000 K
- Lifetime: 50,000 hours / L80B20
- Diffuser: translucent tempered glass, chemically resistant
- Body: steel sheet, white colour (RAL 9003), impact-resistant
- Clips: FeZn with blocking, it serves also for suspension of glass when light fitting is open
- Sealing: EPDM attached to light fitting body
- Terminal block: interconnecting connector
- Installation: package contains steel two-piece slides, white colour (RAL 9003)
- Electric equipment: LED modules, current driver or current driver DALI
